

REGENERATIVE MEDICINE VIRTUAL SYMPOSIUM 2021

Date: 13th November 2021

Time: 08.00 am to 17.00 pm

Platform: Zoom

Website: <https://mact.org.my/>

Cell and Gene Therapy Products: Research to Product Registration

Regenerative Medicine is an emerging field aimed to restore both structure and function to the musculoskeletal system. This field has great potential to transform the current practices and standard-of-care in Medicine. It integrates a multidisciplinary approach to address patient needs. To ensure that regulated advanced therapies are provided at clinical point-of-care (POC), adherence to current regulations and legislations need to be emphasized in tandem with the research and development of regenerative medicine products. In our local regenerative medicine landscape, the National Pharmaceutical Regulatory Agency (NPRA) in Malaysia ensures the quality and safety of pharmaceutical products, including Cell and Gene Therapy Products (CGTPs). The Regenerative Medicine Virtual Symposium 2021 with the theme of "Cell and Gene Therapy Products: Research to Product Registration", aims to provide a platform for the various stakeholders in the regenerative medicine industry to share their experience in meeting the requirements by the international regulators (i.e. Food and Drug Administration (FDA)) and local regulators i.e. NPRA and Medical Device Authority (MDA), to register their CGTPs as practical products for patient use. This symposium aims to gather all stakeholders including industries, researchers and regulators to exchange their views in this challenging transition time. This meeting also serves as a platform for your researchers, including postgraduate students and postdoctoral research fellows to present their research work related to regenerative medicine.

Register by today. FOC for early bird registration.

Submit your abstract now to stand a chance to win the best Oral/ePoster presentation awards.

Deadline for abstract submission: 10th October 2021

Deadline for early-bird registration: 8th October 2021

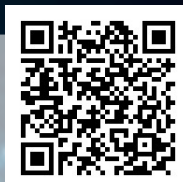

Register and submit your abstract at:

<https://www.mact.org.my/MeetingEventContents.jsp?pk.eventID=13>

ABSTRACT SUBMISSION GUIDELINES

1. Each participant may submit only one (1) abstract as presenter but can be a co-author of other abstracts. **The first author must be the presenting author.**
2. The work may be of research (qualitative or quantitative), case report, case series, concept paper or systematic review.
3. Submit the soft copy of the Abstract by **10th October 2021.**
4. The presenter should submit an online copy of the abstract in word document soft copy using the template provided in MACT website (<https://mact.org.my/>).
5. Times New Roman font (size 12) with a total word count of **300** words excluding the title, authors, affiliations and keywords.
6. The title of the project should be in **bold.**
7. List each author's name with the surname (Last name) followed by first and middle initials. Eg. Ali M.M. or Lee E.H. or Murali M.R.
8. Include the affiliated department of the authors.
9. The conflict of interest (COI) of each author must be clearly stated.
10. Submit the Abstract in a Word file online via the registration link:
<https://www.mact.org.my/MeetingEventContents.jsp?pk.eventID=13>

The Word file must be saved with a file name in the following format:

Firstname_Initial_MACTsymposium_Abstract

Example of filename:

Murali_MR_MACTsymposium_Abstract.docx

1. Abstract submission deadline: **10th October 2021**

Abstract Content

Background:

Two to three sentences of the research background.

Objectives:

Statement of objective(s) of the study.

Eg. *To determine*

Methods:

If the study involved clinical human study or pre-clinical animal study, the research ethics approval number shall be stated. Include a brief description of the study design/methods used.

Results:

All methods stated shall have their respective results, where the appropriate statistical significance should be stated. Do NOT include any figure or table. The entire abstract shall not exceed one A4 page or a maximum of 400 words (including background, objectives, methods, results, discussions, conclusions and clinical applications).

Discussion:

Statement of discussion(s).

Conclusions:

A statement that summarizes your conclusion.

Clinical Implications:

What are the clinical implications of this study?

Keywords:

Type five keywords related to your research here; each separated by a comma (,).

Conflict of Interest (COI):

Clearly state the conflict of interest here. If no potential COI exists, state "The authors declare that there is no conflict of interest."

Acknowledgements:

Include statement(s) of acknowledgement here (if any).

** Shortlisted submission will be notified for further details on 15 October 2021*
